

SHUBHAM KUMAR

MERN Stack Developer • Full-Stack Web Developer

Muzaffarpur, Bihar, India • 9341027533 • shubhamv9546@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated full-stack developer with hands-on experience building end-to-end web applications using the MERN stack. Skilled in designing responsive UIs, developing RESTful APIs, and integrating databases — demonstrated through real-world projects including a full-stack tourism platform and a real-time academic monitoring system. Strong foundations in Data Structures, OOP, and modern JavaScript. Eager to contribute as a Junior MERN Stack Developer and grow within a collaborative, product-focused team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python, Java, C, SQL

Frameworks: React.js, Node.js, Express.js, Flask

Databases: MongoDB, SQL

Developer Tools: Git, GitHub, Visual Studio Code

Core Concepts: REST APIs, OOP, Data Structures & Algorithms, DBMS, OS, Responsive Web Design

PROJECTS

AcademIQ — Academic Intelligence Platform | *React.js • Node.js • Express.js • MongoDB* | 2026 – Present

- Building a full-stack academic monitoring platform to track student attendance and test scores in real time, serving 3 distinct user roles: student, faculty, and administrator.
- Designing automated at-risk student flagging and actionable analytics dashboards, reducing manual tracking effort by eliminating the need for spreadsheet-based monitoring.
- Implementing secure RESTful APIs with Express.js and JWT-based authentication to enforce role-based access control across the entire application.

WanderHub — Tourism Web Application | *Node.js • Express.js • MongoDB • HTML/CSS/JS* | July 2025 – April 2026 | [GitHub](#)

- Built a responsive full-stack tourism platform featuring 10+ travel destinations across Bihar, with dynamic content delivery via Node.js REST APIs and MongoDB.
- Designed a mobile-first, cross-browser compatible UI with interactive components, achieving a seamless experience across all screen sizes and major browsers.
- Structured backend routes and database schemas in MongoDB to support efficient API operations and scalable data management.

Spotify Frontend Clone | *HTML5 • CSS3 • JavaScript* | 2025

- Recreated the Spotify web UI with pixel-accurate, fully responsive design, replicating core layout components including the sidebar, player bar, and content grid.

HACKATHONS & COMPETITIONS

Bug Hunt Bonanza — 3rd Rank | *Government Polytechnic Muzaffarpur* | April 2026

- Secured 3rd rank among 100+ participants in a college-level hackathon focused on identifying C programming syntax errors and logic bugs under time-constrained conditions.
- Demonstrated strong debugging, analytical thinking, and team collaboration skills throughout the competition.

EDUCATION

Diploma in Computer Science and Engineering | State Board of Technical Education, Patna | 2023 – 2026

CGPA: 8.67 | *Relevant Coursework: Data Structures, Algorithm Analysis, DBMS, Internet Technology, Operating Systems, OOP in Java*
